BHAGYA BANDARA WELIVITA

Software Engineer Intern

bhagyawelivita2021@gmail.com | +94705858480 | Kandy Sri Lanka
Bhagya Welivita | Bhagi2001 | Personal Portfolio

PROFILE

I am an enthusiastic undergraduate passionate about web development and software engineering. Skilled in the MERN stack (MongoDB, Express.js, React, Node.js), I enjoy creating interactive and user-friendly web applications. I am a fast learner and an effective team player who is always eager to take on challenging projects and continuously enhance my knowledge and experience in this dynamic field.

PROFESSIONAL EXPERIENCE

Peoples Bank Intern — 2022 – 2023 | Kandy, Sri Lanka

EDUCATION

BSc.(Hons) in Software Engineering — 2023 – Reading
Sabaragamuwa University of Sri Lanka
Current GPA 3.6

G.C.E Advanced Level - Physical Science Stream (**B B B**) — 2017 – 2020 | Kandy, Sri Lanka
Ranabima Royal College

PROJECTS

QuickCert | Group Project — 2025

- A web-based platform designed to simplify the process of requesting income statements online, especially for Sri Lankan citizens. The system provides features such as real-time request tracking, digital document generation with QR verification, and automated workflow between citizens and government officers. An admin dashboard is also included for efficient management and analytics.

My Responsibilities

Designed and developed the UI/UX and handled frontend integration, ensuring a user-friendly and responsive interface for all user roles.

Technologies : Angular, Node.js, Express.js, MySQL, JWT, PdfKit/Puppeteer, QRCode.js, GitHub

---

TransitCare | Group Project — 2025 - Ongoing

- A Public Transport Complaint Management System designed to enhance communication between passengers and transport authorities by enabling structured and transparent complaint handling. The system allows users to register complaints, track their status in real time, and receive feedback, while authorities can efficiently categorize, prioritize, and resolve issues using an automated rule-based approach. It also provides analytics and reporting tools to support data-driven service improvements.

My Responsibilities

Developed APIs and handled database management using Node.js and MongoDB, ensuring secure data handling and efficient backend integration with the frontend.

Technologies : React.js, Node.js, Express.js, MongoDB, Git, GitHub, Postman, Docker

TECHNICAL SKILLS

Programming Languages
C, Java, TypeScript, JavaScript, Python

Frameworks
ReactJS, Angular, ExpressJS, NextJS, Tailwind CSS, React Native

Databases
MongoDB, MySQL

Technologies and Tools
Node.js, GitHub, VS Code, Figma, Postman,Cisco Packet Tracer, Trello , JUnit, Unity, Adobe Photoshop

SOFT SKILLS

Teamworking Skills
Communication Skills
Time Management
Problem-Solving Skills
Self-Learning
Ability Leadership

INTEREST

Designing
Traveling
Playing
Movies
Gaming

EXTRA CURRICULAR ACTIVITIES

Active Member — 2025 – present
CS Chapter Student Branch,
Sabaragamuwa University of Sri Lanka.

Active Member — 2024 – 2025
IEEE Student Branch,
Sabaragamuwa University of Sri Lanka.

CERTIFICATES

Python For Beginners Course In-Depth — 2025
Taught by Horizon Tech on Udemy.
